

LAKSHYA INTERNATIONAL SCHOOL

THE VISION

The School is conceived with the objective of “**Besides best talented and trained Principal and teaching staff, providing environment and unmatched Teaching Learning resources (infrastructure) that gives every students of the school the complete opportunity to develop his hidden talent during the process of growing up.** We recognize that in the education, the journey is as important as the destination. The fundamental objective of the school is to create and sustain a Teaching learning environment through the best infrastructure and Teachers in which the child can learn, explore and discover his own soul and understand his potential

. We attempt to achieve this by creating a multi fold class based development plan at Pre-school and early primary level, Pre-primary and Middle school level ,and senior secondary level based upon the “modern development theory” and education psychology as per the age group and learning ability of the students at that age group.

Belonging to our family, the student shall be given opportunity for Free progress through principles of openness.

THE PHILOSOPHY

Our education philosophy is influenced by the modern brain development Principles which is translated as “ Children have an incredible hidden potential to learn and explore ,the key is to provide them exposure to a quality learning environment and variety of innovative inputs in the form of modern infrastructure and teaching learning resources at an early age of their schooling for their holistic development”. Under the shadow of our philosophy weight-age shall be given to the:-
Principal of Modern Brain development theory, Educational neuroscience and Principles of multiple intelligence.

MOTTO

Our motto is “ Vidhya dhanam sarva dhanam pradhanam ” through which we shall establish by way of value based Holistic quality education “a fact in the mind of all our students that the success of the life should be measured by knowledge and not by the wealth.”

SCHOOL SYSTEM

The well defined objective of our school shall be achieved by providing the school environment different from traditional approach of schooling conceived by the modern Brain development theory which shall differentiate the school as a unique learning school to prepare the learner as a lifelong learner. The unique system of our school shall develop the capacity of the learner to **“use the skills of learning to learn more effectively”**. At the end of senior secondary education, our students shall have:

- ☀ Developed competence in literacy and spoken language skills which shall allow them to participate effectively as young adults in the society.
- 🌱 Developed Mathematical skills that shall enable them to function effectively in daily life as well in the technological world.
- ☀ Experience of various artistic ,intellectual and practical activities which shall allow them to apply aesthetic judgments in every day life.
- ☀ Acquired the necessary knowledge skills and attitudes to make wise and safe choices in relation to their health and well-being.
- 🌱 Have formative experiences in moral and religious education
- ☀ Developed competence in scientific enquiry and practical skills including computer literacy to enable them to use critical and creative thinking and to solve problem.
- 🌱 Acquired knowledge and appreciation of their social and cultural heritage ,and environment .
- ☀ Gained an understanding of how people interact with the environment ,the management of resources and the importance of sustainable development for
- ☀ Acquired an understanding and appreciation of the central concepts of responsible citizenship.
- 🌱 Developed the capacity to become entrepreneur with the object to serve the society and not the individual. At the end of pre-school education the emphasis shall be on the following objectives:

Pre-School Education

School follows special syllabus designed by the experts ON Pre-primary education. This system stresses activity oriented teaching instead of teacher based teaching, which has been proven to develop all five senses (i.e. **Touch, Smell, See, Taste, Hear**) of young children. Senses are the gateways of knowledge. Well equipped Nursery hall with equipments is provided to aid this section.

Special emphasis is given on the development of the student by designing the syllabus with the concentration of

- ② Development of small ,large and finer muscles and their co-ordination
- ② Development of language through listening and using language expression
- ② Development of social skills
- ② Development of concepts required for formal schooling
- ② Experience with animal life
- ② Experience with plant life
- ② Health Hygiene and body care
- ② Concept of personal safety
- ② Creativity and aesthetic development
- Special physical education program
- Moral development to imbibe strong values

SCHOOL WORKING SYSTEM (ACADEMIC SYSTEM)

The school shall offer NCERT syllabus approved by CBSE. Classes up to +2 levels will be added in subsequent years with different streams like Science, Commerce, Computers, and Bio Technology etc. Vocational subject shall also be part of the school education to develop entrepreneurship in the students. The institution is being affiliated to CBSE and we have planned to proceed for international affiliation and CBSE-i affiliation also. The entire Academic system is coordinated and supervised by the well qualified Principal and a team of educationists. The size of a class is limited to ensure a high-level of student-teacher interaction. The teacher-student ratio in the school will be 01:15.

CLASSROOM/ LABORATORY/ LIBRARY

We understand the importance of environment of learning. A happy classroom breeds happy children, and to this end, classrooms at our school will be large, bright, technologically well equipped and cheerful. The school will have a well-equipped science room for experiments and activities for the junior classes. The senior school shall have separate laboratories for different science subjects. Adequate computer and language laboratories will also be provided. They shall be spacious and equipped with all necessary gadgets and equipments of highest standards.

The school library is the hub of knowledge seekers. Library at our school shall be well stocked. The library shall contain encyclopedia, dictionaries, general interest books, fiction, classics, comics, magazines, journals, videos, CDs, films, music and documentaries. The use of the library is made meaningful, fun and interesting for the child through the organization of various book-related activities. The serene and cozy ambience of the library is a retreat for all students to read research or simply browse through the enormous collection. At our school we shall aim to bring back the joys of reading.

Extra Curricular Activities

The School guides its students into a world of opportunity with the confidence born of achievement in the range of activities open to them.

They are encouraged to enjoy the excitement of learning and the adventure of a wide span of leisure and service activities.

Every student is encouraged to recognize the importance of physical exercise in maintaining a fit and healthy lifestyle. Yoga, Aerobics, PT, are some of the activities offered at The School. All students earn Essential Skills through activities such as Music, Dance, Drama and Role-play, First-aid, Arts, Art and Craft, Reading and Community Service. Weekend activities are organized through various clubs for fine Arts, Gardening, Mathematics, Science, Quiz, School Newsletter, Pottery, and Conservation etc. The

schedule also allows ample free time for the children to engage in other recreational avenues and hobbies of their choice.

Essential Skills

Music

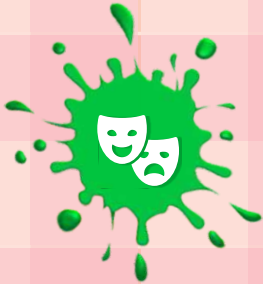

Music at our school is a soul enriching activity. Every pupil is encouraged to play at least one musical instrument or take singing lessons or music appreciation classes. Students are taken to concerts as a learning experience.

Art

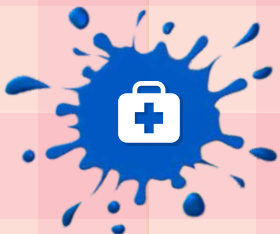

A well-equipped Art Room at our school develops confidence of the students and skills in areas such as drawing, painting, pottery, model making and sculpture. School holds art appreciation workshops for the students and staff at regular intervals.

Theatre and Drama

Students are exposed to all aspects of theater, which includes lighting, production, stage design and costumes, through workshops conducted by experts.

First Aid

Every Student is given working knowledge of first aid, with, credit being given to those who are found applying their knowledge to daily situations.

Clubs

Clubs play an important role in life at our school. Each student is expected to be a member of at least one club. Outstanding performances displayed by members of respective hobby clubs are given recognition, encouragement and rewarded appropriately.

- ✓ **Book Reading**
- ✓ **Gardening**
- ✓ **Science fun**
- ✓ **Creative Craft**
- ✓ **Philately**

- ✓ **Bird Watching**
- ✓ **Carpentry**
- ✓ **Quiz**
- ✓ **Math**
- ✓ **Conservation**

Movies, visits to places of interest, concerts, city visits, picnics, treks, campfires and excursions add variety to the regular routine.

SPORTS AND RECREATION

The School is committed to the development of a healthy individual and encourages a proper balance of work and play. The school's splendid environs support this need. A well-equipped sports department, with excellent facilities, conducts several competitive and recreational activities. Qualified and competent instructors manage the sports department & different games.

TECHNOLOGY INTEGRATION

This is a key focus area in all aspects of life at The School. Apart from an advanced computer resource lab for academics, networked computer stations (offering Internet connectivity) are placed on the campus.

DISCIPLINE

The philosophy of the school rests on shaping responsible children, hence emphasis is on self-discipline. There is no corporal punishment at The School. Children are encouraged to analyze and correct their own behavior, through a carefully evolved participatory discipline policy. Discipline guidelines are framed with student participation to ensure emotional and physical safety of the children and also nurture their sense of values. Value education at The School is regular part of school curriculum.

COUNSELING REMEDIAL EDUCATION

The counseling program also ensures equal opportunities for all students to participate fully in the education process. Learning difficulties, if any, are identified. There is a special Resource Room, with facilities for remedial teaching, for children identified with such difficulties. The school has a comprehensive well defined counseling program which promotes and enhances student learning and contributes towards making them confident, caring and responsible individuals.

The professional counselors at The School also guide students, staff and families through a variety of activities.

LANGUAGE DEVELOPMENT PROGRAM

At The School special emphasis is given on the Language skill development of the students. We believe that, it is absolutely essential to learn at least two languages one is foreign language and second is our National language Hindi, both these languages play very important role in the development of communicational skills of an individual. A well designed program for language development at The School is supervised by a team of skilled staff. Special language Labs shall be made available for effective learning.

★ **Coaching for Various Competitive exams:** We also provide free of cost guidance to all our students for various competitive examination. Students shall be motivated to appear in the exams like subject Olympiads, KVPY, NTSE, JEE, NEET etc.

★ **Staff Training:** To make teachers effective in their profession, We have extensive program to train teachers on a regular basis to keep up to date with latest change in technology, teaching methodologies Our teachers are encouraged to attend the various national and international seminars to keep abreast with latest changes in the field of education.

★ **Skill development workshop:** An independent well equipped work shop will be made available in the school to develop skill of the student which can be used in life after the school. Trained professional on part time basis will be hired on regular basis to develop talents of the students.

A Parent As Partners In Learning

A partnership and continuous cooperation between parents and the school is the cornerstone of a good educational environment. There are a number of opportunities for parents to be involved in the school's operation and growth. Local parents may assist class teachers with small group and special activities related to academics and extra curricular activity. We firmly believe that Parents are a partner in their child's education. To develop awareness of the parents in respect of CBSE school education system workshops are organized for the parent in the school. Parents are expected to attend such workshop without fail.
